

RAJEEV YADAV

Entry-Level Software Developer | Full-Stack Web Development

Phone: +91 8299279529 • Email: rajeev829927@gmail.com • Location: Varanasi, UP, India
GitHub: github.com/rajeev8299 • Portfolio / Live Work: sansarnursery.in

PROFESSIONAL SUMMARY

Detail-oriented and results-driven MCA candidate with practical experience in full-stack web development, backend scripting, and database administration. Proven competence in designing scalable web architectures using HTML5, CSS3, JavaScript, PHP, and MySQL. Adept at creating robust relational databases, implementing RESTful patterns, and collaborating across Agile environments using Git/GitHub.

TECHNICAL SKILLS

Languages: C, PHP, JavaScript (ES6+), SQL, HTML5, CSS3
Databases & Concepts: MySQL, Relational DBMS, Database Normalization, OOP, SDLC, CRUD Operations
Frameworks & Tools: Git, GitHub, VS Code, Apache / XAMPP, Responsive Web Design (RWD)
Core Competencies: Full-Stack Development, Algorithmic Logic Building, API Integration, Agile/Scrum

WORK EXPERIENCE

Osizone – *Software Developer Intern* Sept 2025 – Present | Varanasi, India

- Engineered interactive GUI desktop applications (including logic calculation engines and interactive games), applying modular programming and clean design principles.
- Collaborated within an Agile sprint lifecycle, maintaining active Git repositories, version control workflows, and code review compliance.
- Optimized core algorithmic routines and handled structured data operations to enhance application performance and user responsiveness.

KEY PROJECTS

Sansar Nursery – Plant E-Commerce Platform | [PHP](#), [MySQL](#), [JavaScript](#), [HTML5](#), [CSS3](#) sansarnursery.in

- Architected and deployed a production-ready e-commerce platform featuring dynamic product categorization, catalog browsing, and inquiry routing.
- Engineered backend data pipelines with MySQL to manage inventory records, order inquiries, and secure query transactions.
- Created a mobile-first, cross-browser responsive interface ensuring fast load speeds and intuitive UI/UX navigation.

Full-Featured E-Commerce System | [PHP](#), [MySQL](#), [JavaScript](#), [CSS3](#) Personal Project

- Developed an end-to-end shopping web application complete with session-based cart management, user authentication, and multi-step checkout workflow.
- Structured relational schemas with foreign key constraints, ensuring ACID compliance and high-efficiency query execution.

Library Management System | [C](#) / [PHP](#), [MySQL](#), [DBMS](#) Academic Project

- Built an automated records management application to handle book issue/return tracking, member profiles, and fine calculation.
- Implemented strict database validation checks, reducing manual inventory logging errors by over 40%.

EDUCATION

Master of Computer Applications (MCA) – RSMT Varanasi (AKTU, Lucknow) 2024 – 2026
Bachelor of Computer Applications (BCA) – MCMT, VBS Purvanchal University Graduated 2022

ACHIEVEMENTS & ACTIVITIES

- State-Level Sports Achievements:** Won State-Level Medals in Roll Ball & Skate Racing Tournaments (demonstrating discipline and team collaboration).
- Languages:** English (Professional Working Proficiency), Hindi (Native).
